PROFILE

I'm a dedicated Frontend Developer and a Computer Science student at the University of Gdansk, specializing in Web Applications. I have experience in building responsive and functional mobile and web applications using React, React Native, TypeScript and other web technologies. I've worked on numbers of features in various projects, with a focus on user-friendly design. I'm a strong collaborator with experience working in remote teams. Committed to continuous learning, currently expanding knowledge in backend development and cloud technologies.
